About HistoCyte Laboratories Ltd

HistocYTE Laboratories Ltd designs, develops and manufactures a range of products used in pathology services. HistoCyte Laboratories Ltd sells its products direct to the market in the UK and Ireland, it also sells its products on a global basis with distributors in over 40 countries. The company is located at the Quorum Business Park, Newcastle upon Tyne in purpose built facilities. All work is conducted within an ISO 13485 quality management system.

HistoCyte Laboratories is experiencing unprecedented growth and is therefore looking to recruit scientists in order to meet future demands. Further information about the company can be found at www.HistoCyte.com. We need people with energy, enthusiasm and entrepreneurial spirit to help us grow.

Job Description:

To perform Histology procedures, contributing to both production and research and development within the company.

Primary Duties to include, but not be restricted to, the following:

1. Cell/tissue processing,
2. Microtomy,
3. H&E stains,
4. Immunohistochemistry and in situ hybridisation
5. Embedding, micro-array construction.

30th September 2019

Additional tasks may include:

1. Assist in stock control.
2. Clean and maintain equipment to achieve the optimum instrument performance and maintain a clean and safe working environment.
3. Provide input to maintaining policies and procedures, review and update as required.
4. Participate in laboratory and company meetings as required.

All tasks to be performed accurately, efficiently and according to Laboratory work instructions and procedures.

The successful candidate will report to the Production Manager.

The ideal candidate

The successful candidate will be a self-starter, enthusiastic with a good scientific approach focused on quality and reproducibility of both their work and our products. They should be good communicators (written and verbal) able to convey technical concepts easily.

Ideally, the candidate will have a bachelor's degree with several years' experience in histology or a related field. Experience of working under ISO13485 quality management systems would be advantageous. A positive attitude and motivation are by far the best qualities to have and will be considered above qualifications.

The candidate must be a UK citizen or have the right to work in the UK.
